Statement:

Alaska's strength is her people. We must develop our resources for their maximum benefit, not corporations, not political ideologies, but for all Alaskans. We must foster a healthy economy that provides good jobs, offers top-notch education, and delivers services Alaskans need and deserve. Reducing the high cost of energy is a priority. We need to understand what is happening to our wild salmon and protect this incomparable resource for our use forever.

I want to increase school funding to provide Alaska's children the highest quality education. Alaska's young people hold unlimited potential and are truly our greatest resource. We must give them the tools to succeed.

I support dependable funding for the University of Alaska. We must dream big. Sustain successful programs, and promote new initiatives to attract the brightest students and best faculty. The university is a powerful intellectual and economic engine that keeps Alaska moving forward.

We need to develop our resources using sound, responsible principles that meet our constitutional obligation to yield maximum benefit for all Alaskans. Building a gas line must provide economic opportunities for all Alaskans. I support "Alaska hire."

With four generations of my family in Alaska I understand strong families with good jobs and benefits.

"The moral test of government is how it treats those who are in the dawn of life, the children; those who are in the twilight of life, the aged; and those who are in the shadow of life, the sick, the needy, and the handicapped." Hubert Humphrey
